RIGHT contact for weekends-07557197488 !! ★★

We appreciate that the research contact for the weekends was a bit tricky! So, the research nurses will now carry a mobile during their work hours. You may directly inform them of a potential patient instead of calling the trial doctor. However, you can always contact him should you need any clarification.

Recruitment at both City and QMC

Most patients with stroke are admitted to Berman stroke ward at the City. However, there may be times when the stroke ward doesn't have beds and you may have to take patients to a different ward in the City or to QMC.

The trial is active in both Nottingham hospitals (City and QMC) as the trial doctor or the research nurses will be able to go to QMC to receive potential patients. However, we do not have approval for the hospitals outside Nottingham.

New, easy to use trial envelopes now in all stations!!

All old envelopes have now been replaced, and so only use the new white envelopes in the plastic folders. If you come across any old brown envelopes, please post them to Michael Fuller by EMAS internal mail.

Training for RIGHT

Please copy this link and register your interest for April and May 2011
