RIGHT completes final follow up...

The final patient, number 41 was randomised into the study on 15th December 2012 and completed final follow up on 15th March 2012. The data is currently being analysed.

RIGHT in national/international conferences

The preliminary results and baseline characteristics of RIGHT patients were presented as a poster at the European Stroke Conference in Lisbon, Portugal on 24 May 2012. The final results will be presented at the Annual Scientific Conference of the British Hypertension Society at Queen's college, Cambridge on 10th September 2012 and at the UK Stroke Forum in Harrogate on 6th December 2012.

Qualitative Research.

Thank you to all paramedics who took part in the Qualitative Research Study. You may have already received the claim form for your travel expenses for the day of the interview. I had sent it as an email attachment. Should you have any queries about this, or if you have not received the email, please get in touch with me by email or telephone.

Paramedics Investigator meeting

One for your diary: The RIGHT investigator meeting will be held on 13th September 2012- 1800 to 1930 hours. We will share the results of this exciting trial with all paramedics who participated in the study. All RIGHT paramedics are welcome!
